

## From the BAIS Director

Dear BAIS Families,

It is with great joy that I write to you as we begin the 2021-2022 school year! Our students and teachers are embarking on another year of exciting learning and growth. Over the past 18 months, we have seen that the manner of delivering academic content, along with education in general, has changed in various ways. With the need for distance learning still in place, our children are being challenged through increased independent learning, and more than ever before, parents are being asked to walk more closely alongside their children as they study.

Will we ever return to the "normal" we once knew in schools? This I cannot answer. I can, however, assure you that BAIS is committed to staying ahead of the curve and providing the safest, most comprehensive education for your children, whether online or in person. Our guiding priorities can be seen here:

AUGUST	
28	SAT Test
SEPTEMBER	
10	Mid Quarter Grades on PS
11	ACT Test

### BAIS Guiding Priorities

The most important priority is the health and safety of our students, staff, faculty, and community members

Providing a rigorous and balanced education that both challenges and adapts to current health and safety requirements

Working in accordance with the laws and recommendations of the Indonesian government

Following protocols based on current research and findings from reliable health organizations

Listening and responding to the feedback and needs of our community

Providing flexibility in learning for the differing comfort levels of our community members

As cases decrease, restrictions ease, and in-person instruction becomes a possibility, BAIS students will be welcomed back to campus for what will be a long-awaited reunion for our community. This week, we have begun the process of submitting our reopening plans and proposals to local government authorities. As we walk through this process, you will be notified each step of the way. More information will be coming soon about upcoming webinars and online student activities. Stay tuned!

With Gratitude,

Mr. Cantrall  
Director

Dear BAIS Community,

It's drama time again!!! We are so excited to be able to perform Peter Pan this year. Thank you to all of you who have let us know you are interested in participating this year. (Psstttt - elementary we will come talk to you after Christmas ) Ms. LaMertha and Mrs. Loewen are going over the scripts and music and figuring out the best

placement for everyone. Please be watching your email at the end of next week for an invitation to a role.

---

## Message from the Athletic and Activities Director

Welcome to the 2021-2022 School Year! My name is Hani Irmawati Ramappa and I have been part of the BAIS community as a parent since 2010, and joined the BAIS staff in 2019 as the Marketing Director. This year I will be playing a dual role as Marketing and Athletic Director. I am excited to take on both of these roles because sports and marketing events work hand in hand.

Focusing on my Athletic Director role, I will be working with Ms. Dias to organize and create athletic events and programs that we know are safe during this pandemic. I am also looking forward to working with parents and students to think creatively on how we can facilitate safe sporting events to keep our students agile and healthy.

As for now, I encourage all parents and students to utilize the school's facilities. BAIS is equipped with amazing facilities from the soccer field to the swimming pool. Please take the opportunity to use the resources available to you to keep yourself healthy and agile during online learning.

Keeping healthy together!

Hani Irmawati Ramappa, MBA  
Marketing & Athletic Director

## Health Record Update

Dear Parents,

Thank you to those who have already submitted the Annual health Record update.

If you haven't submitted your child/children's annual health update 2021-2022,

Please [download the attached health record update](#) form and email it to dr. Mayke at [maykerosalina@baisedu.org](mailto:maykerosalina@baisedu.org)

Thank you,  
dr. Mayke Rosalina Rompas
